ABOUT ME

Data scientist with a degree in Economics and currently pursuing a specialization in Analytics, with experience in data analytics and Backend and Frontend development.

Characterized by being a responsible, dedicated, proactive person, with great abilities for teamwork and leadership, as well as passionate about new learning and professional growth.

EXPERIENCE

- Aug 2023 - Currently**
Talent B - Analytics
Grupo Bancolombia
I develop web pages that facilitate interaction with the client from the backend to the frontend, using analytics and data collection with the use of Python, Django, Dash, Excel, HTML and CSS.
- Jan 2023 - Jul 2023**
Analytics Intern
Grupo Éxito
I developed analytical models using R, Python, SQL and Django, facilitating the entity's decision-making processes and in research with Banco de la República.
- Feb 2022 - Nov 2022**
Research assistant
University of Medellin
I carried out activities related to analytics and data collection using tools such as R, Python and Excel on behavioral economics and financial models.

EDUCATION

- Jan 2024 - Currently**
Specialization in Analytics
National university of Colombia
- Jan 2019 - Jun 2023**
Economist
University of Medellin

SOME PROJECTS
